**Department Report (From 1st June 2020 to 31st December 2020)**

**1 Faculty Contributions**

- 1.1 Workshops Conducted for faculties
- 1.2 Workshops/Courses Conducted by faculties
- 1.3 Courses Attended by faculty
- 1.4 Skill Development Activities
  - 1.4.1 Certification Exams
    - 1.4.1.1 NPTEL Certifications
    - 1.4.1.2 Coursera
    - 1.4.1.3 Other Certifications
- 1.5 Research Forum Activities
  - 1.5.1 Research Grants
  - 1.5.2 Research Papers Published
- 1.6 Accomplishments

**2 Student Portfolio**

- 2.1 Student Achievements
  - 2.1.1 Academic Excellence
  - 2.1.2 Placement Activities
  - 2.1.3 Higher Studies
  - 2.1.4 Competitive Exams

## **2.2 Skill Development Activities**

2.2.1 NPTEL

2.2.2 Certification Programs

2.2.3 Motivational Sessions on Joyful Living

2.2.4 Tech-Xpert Talks : VESIT Academia Industry Connect Program

## **2.3 Tinkerers' Lab : Code Cell Activities**

## **2.4 Project Innovations / Competitions**

2.4.1 SIH 2020

2.4.2 Deep Blue

2.4.3 LBS

2.4.4 IIC National Innovation Contest 2020

2.4.5 Techniche ( IIT Guwahati)

## Department of Computer Engineering

### Academic Year 2020-2021

### Department Report (From 1st June 2020 to 31st December 2020)

Various activities conducted in the Department of Computer Engineering in the academic year 2020-21 during 1st June 2020 to Dec 2020 have been categorized as mentioned below:

## 1. Faculty Contributions

### 1.1 Workshops Conducted for Faculties ( Total 02)

**1.1.1 Faculty Development Program on Research Directions in Security and Computational Intelligence:** Department of Computer Engineering , Information Technology and Master of Computer Applications in association with CSI-VESIT, VESIT-Internal Quality Assurance Cell(IQAC) and VESIT-Institution's Innovation Council(IIC) conducted a National level six-day online Faculty Development Program during 3rd-8th August 2020 on '**Research Directions in Security and Computational Intelligence**'. This program was organized with the aim of guiding its faculty towards different avenues of research in Security, Blockchain, AI, Neural network, Fuzzy logic, methodologies of teaching learning process and its online tools.

Vivekanand Education Society's Institute of Technology  
CSI VESIT  
Affiliated to University of Mumbai, Approved by AICTE and recognized by Govt. of Maharashtra.

3rd-8th August 2020

DEPARTMENTS OF COMPUTER ENGINEERING, INFORMATION TECHNOLOGY & MASTER OF COMPUTER APPLICATIONS  
(In association with CSI-VESIT, VESIT IQAC & IIC)

**NATIONAL LEVEL FACULTY DEVELOPMENT PROGRAM (Online)**  
Research Directions in Security and Computational Intelligence

3 p.m. - 6 p.m.

**Patrons:**  
Dr. (Mrs.) Nagesh Giri, HOD, CMPN  
Dr. (Mrs.) Shalu Chopra, HOD, INFT  
Dr. Shikumar Gode, Deputy HOD, MCA

**Department Co-ordinators:**  
Dr. (Mrs.) Sharmila Sengupta, Associate Professor, CMPN  
Mrs. Vinita Mishra, Assistant Professor, IT  
Mrs. Indira Bhattacharya, Assistant Professor, MCA

**CSI-VESIT Co-ordinator:**  
Mrs. Mona Deshmukh, Associate Professor, MCA

Shri B. L. Bhojani, President VES

## 2.1.2 Placement Activities :

### A) Placement Activities Conducted for year 2020-2021

#### (I) Seminars /Expert Lectures

Sr. No.	Activity	Date/ Time	Class	Expert
1	Online Senior-Junior Interaction - III	02/07/2020 2:30 pm	TE	Students placed in TCS Ninja, TCS Digital, Media.net, L&T GET, Nomura

2	Online Senior-Junior Interaction - IV	06/07/2020 2:30 pm	TE	Students placed in Accenture, Ernst & Young, Dark Horse, Reliance Jio, Network Marvels, LTI, Capgemini
3	Eligibility, Employability and Resume Building	16/9/2020 10:00 AM to 12:00PM	SE	Prof. Nagananda
4	Skill Set Analysis and Resume writing	13/10/2020 10:00AM	TE	Prof. Nagananda
5	LTI recruitment readiness	27th august 2020 1:00PM	BE	Representative from LTI
6	JP Morgan Chase: 2020 Winning Women Event	Friday, November 6, 2020	SE,TE,BE	Mr. Rushabh Mehta (HR)

### 1) Skill set analysis

The screenshot shows a Google Meet session in progress. The main content is a presentation slide with the following text:

**Skill Set Analysis**

Nagananda.A  
Training and Placement Officer  
V.E.S. Institute of Technology.  
Chembur, Mumbai

The meeting interface includes a top bar with the title "Campus Readiness session on...", a browser address bar showing the Google Meet URL, and a top right corner with the time "10:05 AM" and a "You" indicator. A grid of participant avatars is visible on the right side of the screen. The Windows taskbar at the bottom shows the search bar, task view, and system tray with a battery level of 91% and the date "13-10-2020".

**Skill Set Assessment (Personal)**

## B) Placement Record

### ★ Placements Summary:

- ★ The process of placement started in July 2020 on virtual mode (Online) with dream companies like JP Morgan & Chase-CFG, Indus Valley Partners (IVP), Interactive Brokers, Institutional Shareholder Services (ISS), MAQ software, Carwale.com, Quantiphi, Dolat Capital etc. followed by our major recruiter Accenture.
- ★ Like every year, this year also students have performed extremely well. Students participated in a coding contest organized by JP Morgan & Chase- Code for Good (CFG), TCS : Codevita, TCS-NQT and Nomura: KakushIN. Many students got the placement opportunity through these contests.

### ★ Highlights

- ★ 75.13 % of eligible and interested students have got placed till date.
- ★ 21 companies have visited the campus till the date for the Computer Engineering stream.
- ★ Highest salary offered is 14 Lacs/Annum.
- ★ Average salary offered is 6 Lacs/Annum
- ★ 93 students have got the dream job offers.

## ★ Contest Participation

### ❖ Code for Good contest by JP Morgan & Chase

#### Winner Team members

- Sartha Tambe
- Mohini Bhave

### ★ KakushIN contest by Nomura

#### Second runner up team members

- Pratiksha Wadhibhasme
- Sonia Thakur

## ★ Job Offers through Coding Contests :

Sr. No.	Contest Name/ Company	Number of job Offers	Salary (Lacs/Annum)
1	Code For Good (CFG), JP Morgan & Chase	18	14
2	NINJA Offer, TCS CODEVITA	4	3.3
3	NINJA Offer, TCS NQT	13	3.3
	<b>Total</b>	<b>35</b>	

## C) Placement Statistics for the year 2020-21 (as on 29th Dec. 2020)

### 2.1.3 Higher Studies :

- 7 students got admitted and joined for higher studies in Indian and foreign universities during the academic year 2019-20.
- 15 students got admission but could not join due to Pandemic.

#### A) Records of Higher Studies for Academic Year 2019-2020

Sr. No.	Division	Name of Student	University	Field of Specialization
1		Austin Coutinho	NIT Calicut	Computer Science Engineering (Information Security)

2	A	Chinmay Sankhe	University of Southern California	Masters in Computer Science (General)
3	B	Ashnil Vazirani	Rochester Institute of Technology, New York	Computer Engineering
4		Sarvesh Relekar	New York University, GSAS	Computer Science
5		Akanksha Garima Mittal	XLRI, Xavier School of management, Jamshedpur	Business Management (PGDBM)
6	C	Sachin Chandani	Conestoga College Institute of Technology and Advanced Learning	Information Technology Business Analysis - Operations
7		Akshara Gadwe	Columbia University, New York	Operations Research

**These students got admission but due to pandemic could not continue and they have delayed their admission.**

Sr. No.	Division	Name Of Student	University	Field Of Specialization
1	A	Abhiruchi Bhattacharya	University of Southern California	Computer Science (AI)
2		Rishikesh Rajesh Kadam	University of Southern California, Los Angeles	MS in Computer Science
3		Saloni Punjabi	California State University Long Beach	Computer Science
4		Omkar Morogiri	Rochester Institute of Technology	MS in Computer Science
5		Rahul Bhatia	University of Florida, Herbert Wertheim College of Engineering	Computer & Information Science & Engineering
6	B	Akash Hasamnis	University of California - Irvine	Computer science
7		Puja Rajesh Mahtani	IUPUI School of Informatics and Computing	Human Computer Interaction

8		Dhaval Ulhas Bagal	State University of New York at Stony Brook	Computer Science
9		Soham Dighe	University of Melbourne	Data Science
10		Sanket Gokhale	Columbia University	Data Science
11		Rishil Kirtikar	Courant institute New York University	Computer science
12		Tejas Thakur	State University of New York at Buffalo	Computer Science

## 2.2 Skill Development Activities

### 2.2.1 NPTEL Video Lectures ( Total 03)

2.2.1.1 NPTEL Video Lecture was conducted for second year students on the topic

‘Transformations in 2D’ by Prof. Sukhendu Das, IITM on 2nd December 2020.

2.2.1.2 NPTEL Video Lecture was conducted for second year students (D7A) on topic ‘Graph Theory, Set Theory’ by Prof. Sudarshan Iyenger, IIT Ropar on 12th November 2020.

2.2.1.3 NPTEL Video Lecture was conducted for third year students(D12A, D12B,D12C) on topic ‘Concurrency Control by Prof. Partha Partim Das, IITK on 2nd December 2020.

## 2.2.2 Certification Programs

### 2.2.2.1 NPTEL Local Chapter:

Following Value Added Courses were offered through NPTEL local chapter for CMPN Students:

Course Name	Class offered to
Body language: Key to professional Success	2nd Yr B.E.
Developing Soft Skills and Personality	3rd Yr B.E.
Ethics in Engineering practices	4th Yr B.E.

Following NPTEL Courses were recommended on the basis of the subject for specific classes.

Class	Subject Name	NPTEL Course Name	Mentor Name
D7A	Discrete Structures & Graph Theory	<a href="#">Discrete Mathematics</a>	Abha Tewari
D7B	Discrete Structures & Graph Theory	<a href="#">Discrete Mathematics</a>	Mrs. Mannat Daultani
D7C	Computer Graphics	<a href="#">Computer Graphics</a>	Mr. Richard Joseph
	Discrete Structures & Graph Theory	<a href="#">Discrete Mathematics</a>	Sunita Suralkar
D12A	Database Management System	<a href="#">Database Management System</a>	Mrs. Pallavi Saindane
D12B	Computer Networks	Demystifying Networking	Prashant Kanade
	Advanced Algorithms	<a href="#">Design and Analysis of Algorithms</a>	Lifna C S
D12C	Computer Networks	Introduction to Computer Networks & Internet Protocols	Sujata Khandaskar
	Advanced Algorithms	<a href="#">Design and Analysis of Algorithms</a>	Mr. Richard Joseph

## 2.3 Tinkerers' Lab : Code Cell Activities

### 2.3.1 Mobile App Development using Kotlin:

#### Summary :

A free Mobile App development using Kotlin virtual workshop was conducted by the Department of Computer Engineering, VESIT in Association with IQAC and IIC on 7th and 8th August 2020. It consisted of a brief seminar on Kotlin followed by a hands-on workshop in which students developed an application which stored and retrieved user data locally. The workshop was conducted by Mr. Siddhesh Patil.

#### Speaker Details:

- At Paytm he is involved in multiple business verticals like entertainment ticketing, news feed and core chat features.
- He has independently published over **12+ apps** on Playstore.
- He helps organize an official JetBrains community 'Kotlin Mumbai'. He also serves as Google Community Lead in Mumbai for organizing tech events.
- He has partnered with **Samsung Mobile** to work on TouchWiz theme engine SDK launched with Galaxy S6/Note 5
- He has been honored and recognized for leading an engineering team to ship mobile learning software for top banks in India including **Axis Bank, ICICI Prudential and Yes Bank.**

#### Registrations:

More than 180 students from all the departments had registered for the event , out of which over 90 students had attended the event on both the days.

**Department wise Registrations:**

**Class wise Registrations:**

**Feedback:**

**2.3.2 INVINCIA - CODE FOR CHANGE HACKATHON**

CodeCell Tinker's from Computer Department V.E.S.I.T. in collaboration with V.E.S.I.T. Student Council organized the Code for Change Hackathon. The objective of the 48 hours competition was to make students aware of the ongoing social and environmental problems in the country and aid the various organizations which are trying to tackle them by creating digital solutions and platforms for these Non - Governmental Organizations. The problem statements were provided by the NGOs which dealt with the cause the specific NGO was working towards.

Due to the ongoing COVID 19 pandemic the entire competition took place on Google Classrooms and Google Meets.

Following is a list of the NGOs and the problem statements provided by them;

**1. Website for Human Team Foundation**

Beginning from their engagement with a small group of college students helping one who is struggling alone in this world, [Human Team Foundation](#) effort has always been to address the deprivation and marginalization of communities and children. Over the years, health and child protection emerged as the major domains of their interventions, with a special focus on vulnerable children and their families. They want to improve their donation revenue by educating people through their website and newsletters and showing them their transparent procedure of amount transfer. They want to improve their social media outreach to improve their functionality and reach their highest potential.

**Problem Statement**

The expectation of the NGO is to have a functioning website that would showcase their past works and align with their main aim. This would include their descriptions and a schedule of their future events. The website will be used by the organization to increase reach and provide potential donors with information. The website should be easily accessible and quick to understand. Participants are allowed to add any extra details and/or functions if they want to.

## **2. Website for Freedom For You**

[Freedom For You](#) is an NGO whose aim is to Empower, Educate, and Enhance Lives at the bottom of the pyramid and instill in them a sense of socio-economic freedom. Freedom4U conducts programs in 3 spheres viz., Awareness, Education, and Training in areas such as Health and Wellness, Safety and Security, Financial Inclusion, Socio-Economic empowerment programs with a focus on Sustainability and Inclusiveness. The organization also promotes small scale businesses owned by marginalized people.

### **Problem Statement**

The expectation of the NGO is to have a functioning website that would showcase their past works and align with their main aim. This would include their descriptions and a schedule of their future events. The organization would be using the website to show to potential donors. The website should be easily accessible and quick to understand. Participants are allowed to add any extra details and/or functions if they want to.

## **3. Covid-19 Online Education Portal - Hope Everywhere**

[HOPE](#) was founded in 2016 as a non-profit organization dedicated to supporting people to create positive change. They think the world would be a better place if a million people were practicing the skills of emotional intelligence and building safe space in their personal and professional lives. Their mission is to create a world where children should not only survive but thrive in their life. To build a movement of changemakers who will work closely with different stakeholders towards a thriving life for children and creating a safe space for them. They want to expand their user base to a more diverse community by using their newsletters and other social media.

### **Problem Statement**

Covid19 has affected the education sector to a really large extent, even though lectures are being conducted online and things are getting back on track, the worst hit are the underprivileged children who are now facing a lack of educational support more than ever.

HOPE Everywhere Organization has already created educational content in line with the NCERT syllabus in the video, ebooks, etc formats. They are looking for an online portal where they can share these video contents with other NGOs/Shelter Homes all over India by giving them their own credentials so that even their children can log in individually and access the contents easily.

They also expect to be able to track how the children are benefitting from our video resources and would like to have a direct connection with them to discuss their needs and help them if they face any problem

#### **4. Extract data (OCR) from Devanagari Text - Global Parli Foundation**

[Global Parli Foundation](#) aims to improve rural India through a replicable model of Rural Rejuvenation. The model follows a three-phase procedure :

1. Changing the mindset of the people – replace hopelessness with motivation and action.
2. Make villages drought-proof by water harvesting and then transform lives by increasing social harmony and increasing incomes multiple times.
3. Take the business model and replicate, scale-up, and institutionalize with the help of policymakers.

Their mission is to improve farmer income and educate them with the help of the professionals in the field, bringing overall prosperity to the lives of the villages and fighting climate change by mass plantation of fruit trees.

#### **Problem Statement**

Extract Data from Devanagari Text. The problem statement is to develop a tool, application, or script that can process the required input document in the form of a PDF or Image file and extract readable text from it.

The 7/12 extract, traditionally called "Satbara Utara" (in the Marathi language), is an extract from the land register of any district, maintained by the revenue department of the government in the state of Maharashtra. It is a revenue document showcasing: Ownership, Occupancy, rights, liabilities, and other agricultural aspects pertaining to land, mainly the agricultural land, prepared for each respective village in which the property is located. However, Non-agricultural land also has its own extract. Additionally, it is one of the basic documents of title that serves as evidence of ownership of the agricultural land it represents.

Currently, Global Parli collect the needful documents (7/12 called as "Saath Baara Utara") from our farmers which are originally in Marathi or Hindi depending upon the state of origin. We need to extract needful content from this document which is inherently in Marathi for Maharashtra. And for this purpose, we need an OCR reader from Devanagari text.

The input will be scanned hand-written documents in PDF format, and the task is to develop an application/script/tool to read the Devanagari text from the PDF and output the text. The output need NOT be converted to English. The output document will be in the inputted language only (Marathi/Hindi).

For input dataset, you need to generate the pdfs from the link provided. Go to the website, Enter any survey no. and then enter your mobile number to verify and you can download

the pdf. This pdf will be the input to the OCR. The output should be in the form of an excel sheet having the required details.

**DAY 1 - (17th November 2:00 PM - 3AM )**

The teams were given their first assignments at 2:00 PM. They were allocated their problem statements the day before. Following is the list of the registered participants and a detailed schedule of the assignments given to the students.

### DAY 3 (19th November 2:00 PM - 5PM )

The last day of the Hackathon was the final review of team from an experienced panel of judges consisting of Mrs. Sharmila Sengupta, Mrs. Priya RL. and Mr. Sunny Nahar. Along with these reviewers from VESIT every NGO had one of their representatives as a judge in the panel to review the functionality of the solution. The NGOs were represented by Mr. Harsh Vitra (Global Parli Foundation), Mr. Ashutosh Yadav (Hope Everywhere), Dr. Ravi Kumar (Freedom For You), Mrs. Kshipra Singh - (Human Team foundation). After the review the judges scores were tabulated and the finalists were declared.

### **2.3.3 HACKTOBERFEST EVENT**

In celebration of **Hacktoberfest** various sessions were organized in the Month of October to spread awareness about **open-source contribution** by guiding students through engaging and interactive sessions. Through these 2 to 3 hour sessions students were provided with invaluable knowledge of how they could contribute to the open-source community.

Due to the Covid-19 Pandemic, all sessions were taken online using **Google Meets**.

**HACKTOBERFEST EVENT Google Meet Screenshot**

The following seminars were conducted in the month of October:

1. Getting Started with Open Source and GitHub Workshop
2. GSOC Talk
3. Introduction to DevOps and Jenkins
4. Fundamentals of Linux

All sessions were sponsored by **GitHub** and **Hacktoberfest**. The college became a Hacktoberfest chapter in 2020 itself. This allowed students to enroll themselves in the chapter and make use of various benefits.

Each session was conducted over the weekends ensuring that no lectures clashed with the events. Some sessions were open only to the Computer Department whereas others were open to all departments. Following is a detailed report of all the events.

### **2.3.3.1. Getting Started with Open Source and GitHub Workshop**

The first session was a workshop taken on 3rd October Saturday between 4:00 PM to 6:00 PM. The aim of the seminar was to inform the students about Open-Sources and the commencement of Hacktoberfest 2020. Along with this the students were also given a detailed go through of GitHub GUI and the basics of Git. The session was open to all departments. The speakers for the session were Jay Dulera and Rohan Ghosalkar (both CodeCell Members). Jay covered open source and Hacktoberfest along with providing the students with a detailed collection of repositories students can contribute to, whereas Rohan taught the basic workings of GitHub and the appropriate procedure to make pull requests on various repositories.

*The poster for Getting Started with Open Source and GitHub Workshop*

The workshop began at about 4:10 PM with around 91 participants where Jay introduced Open Source and how it is one of the most useful tools available for students who want to learn coding. This was followed by the functionality of GitHub and how it came to be which was taken by Rohan. Students were shown how to initialize repositories, how to make Pull Requests, how to fork repositories and also how to use GitHub desktop. This was followed by Jay who introduced students to Hacktoberfest and the rules and regulations of the competition. The end of the session saw a small online quiz on Kahoot and finally the meeting came to end at 6:00 PM.

### **2.3.3.2. GSOC Talk**

This was the 2nd session in the series of hacktoberfest events. This session dealt with the in depth knowledge about the GSOC (google summer of code) and its timeline, in which we were explained about how to create a proposal and how to choose a particular organization which suits our interest. These points were covered by Mr. Sladyn Nunes, Mr. Manas Mangaonkar and Mr. Vedant Wakalkar. These students worked for Jenkins, Fedora & CRIU and CDLI respectively.

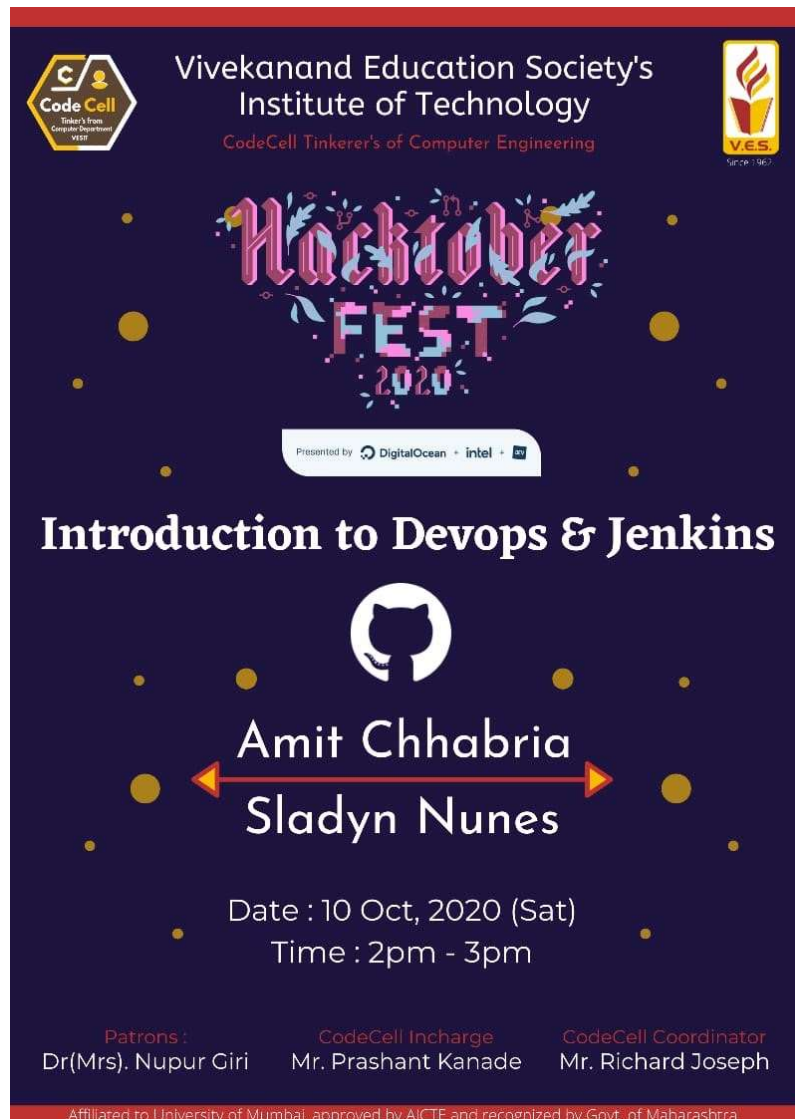

*The poster for GSoC Talk Seminar*

The session started at 12:00 PM on 4th October with the speaker's first introducing themselves and then talking about GSoC extensively. Furthermore they spoke about their own personal experiences while they were in the programme and the incentives of participating in such lucrative competitions. Th

### **2.3.3.3. Introduction to DevOps and Jenkins**

The third session of Hacktoberfest was on the up and coming field of DevOps and Jenkins. This took place on 10th of October 2020 at 2 PM. The speaker for this session was CodeCell member Mr. Amit Chhabria. The seminar dealt with introducing the students to the basic concepts and nitty gritty of Development Operations and how Jenkins is having a huge impact on the world. Alumni Mr. Sladyn Nunes was the guest speaker and joined in the end for a Q&A session and helped clear all the queries of the audience.

#### **2.3.3.4. Fundamentals of Linux**

The final session was conducted on 11th of October on the topic of Fundamentals of Linux operating system. The speaker for this session was Mr. Ajay Singh Khalsa. The session covered one of the biggest flagships of open source software i.e. Linux. The viewers were shown how the O.S. can be used effectively especially by students. Along with this various other functionalities of the software were talked about in the session.

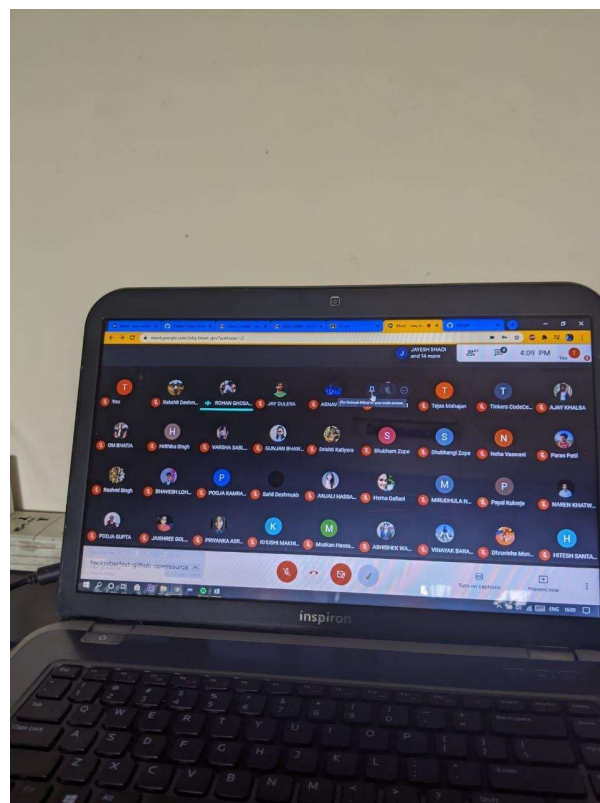

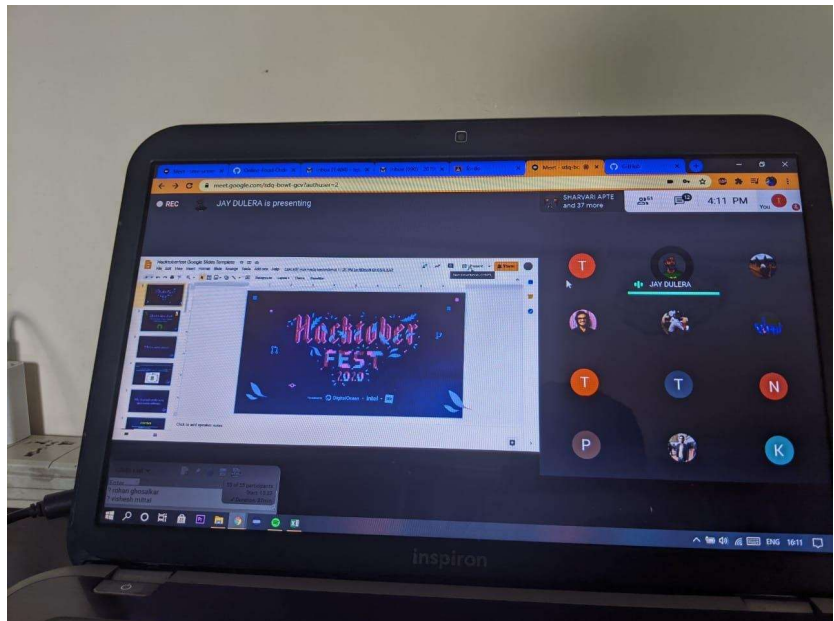

*Poster for Fundamentals of Linux seminar*

After the session was over a short quiz on Kahoot to test students' understanding was conducted and the audience also participated in a Q&A session with the speaker to clear various doubts. Finally as the session ended the participants were asked to contribute to Open Source and implement the many things shown in the seminars.

## 1. Rise of Fintech in Era of Programmable Networks

The rise and software-driven transformation of Fintech have been remarkably aided by cloudification and mobile penetration at every level. The session encompassed an in-depth overview of Financial Technology along with the upcoming potential disruptions such as 5G, Blockchain and IOT that will reach today. A brief discussion on various examples of Fintechs already in place helped put things in perspective and the session finally concluded towards the unfathomable scope these technologies possess if approached correctly.

### 3. How to reach the Big 4 : Amazon, Facebook, Google, Microsoft

At the forefront of every technological breakthrough are giants like Amazon, Facebook, Google and Microsoft. It is the dream of every person in the IT sector to be at the core of the change that these firms bring. The session covered the different aspects of a resume that one needs to focus on while applying for a job in big IT firms like Google, Amazon, Microsoft and Facebook. It also guided the different ways in which the applicant can improve on these aspects and stand out among all. It provides the perspective of a person who is on the other side of the recruitment desk and what are the things they look for in potential candidates. The session also talked about the different steps the panelists took in order to reach their current position which serves as a guide for students trying to get a job in these firms. The speakers shared their experiences and journey to reach these big firms and professional work culture in the IT sector.
